Have you read Japanese books?

I recommend reading some Japanese books. I especially recommend "Genji Monogatari". It was written a long time ago by Murasaki Shikibu. It is a love story about Prince Genji. I was surprised because I had never read it before. I think it would read a help. Genji Monogatari has been translated into English. I think it would be interesting. Please choose one and read it.

Oshogatsu Ozoni

Oshogatsu is a Japanese event that is celebrated on January first. That day, we do many things. I especially like eating ozoni, so I will introduce it to you. Do you know what ozoni is? Ozoni is a food. It's rice cakes in soup. It's very delicious. The taste and shape of the rice cakes are depending on region. In eastern Japan, rice cakes are square. In western Japan, rice cakes are round. Please try making it for you to enjoy the difference. I want you to enjoy a bowl of ozoni.

Japanese manga

I recommend Japanese manga. The first manga ever was written by someone unknown. It was made in the Heian period. This book had humans in animal form. The story is very interesting and the pictures are very beautiful. It was a very new kind of book for Heian period people. Recent Japanese manga has many interesting genres. I especially like horror manga. They are very scary. I think Japanese manga is the best of all worlds.

Is it very scary...? human? Monster? Cat?

Kimono is very nice!

I recommend learning more about the kimono. Kimonos are traditional clothes in Japan. It is very beautiful. Kimonos are very popular. There are many designs. For example, flowers, animals, birds and trees and so on. Some of them are simple. The material is silk. Nikko has some rental kimono shops. You can choose your favorite kimono there. Then you can enjoy wearing it and visit some places. I think kimono is attractive. I want many people to know about it.

novels worth reading

I recommend the novels "No Longer Human" and "Kokoro". "No Longer Human" is written by Osamu Dazai. Osamu Dazai wrote "No Longer Human" after "Bato, Bato". "Bato, Bato" is a book in the Japanese text book. "No Longer Human" is easy for first-time readers. It is written from a third person point of view. That's interesting. Please read it once!
